

## **UPES introduces three new programs; designed and updated to be industry relevant**

Starting academic year 2017, University of Petroleum and Energy Studies (UPES) has launched three new undergraduate programs:

1. B.A Economics with specialization in Energy Economics
2. BBA Accounting and Information Systems
3. BCA with integrated training to earn industry certifications from Microsoft/SAP/Oracle/Cisco

### **Why are these programs unique?**

The UPES B.A Economics with specialization in Energy Economics program has a one-on-a-kind curriculum designed to boost your career in the energy industry. The program offers practical training for energy markets analysts working in government, the private sector, industry bodies and international organizations.

The UPES BBA Accounting and Information Systems program prepares students to use technology to create a competitive advantage and accounting understanding for their organizations. Using technology, companies, organizations, and governments can create stronger relationships with their stakeholders, optimize their operations and supply chains, create more efficient organizations, and generate information for better decision-making. An accounting and information systems professional prepares, communicates, and interprets financial information, and thus is an integral member of the leadership team of any organization.

The UPES BCA program with integrated training to earn industry certifications from Microsoft/SAP/Oracle/Cisco is an updated, industry-relevant program for students aspiring for a non-Engineering IT career.

### **Eligibility Criteria:**

**For BCA:** 50% marks in class 10th and 12th with Mathematics / Computer Science / Information Technology as one of the main Subject in Class 12th

**For BBA Accounting and Information Systems:** Minimum 50% marks at Higher & Senior Secondary level (10th & 12th)

**For B.A Economics:** 50% marks in class 10th and 12th - All Streams
